 AND FOLLOW THE LINK TO OUR  
 PAYPAL DONATION SITE.

Healthcare in the Dominican Republic is a three-tiered system. The lowest tier groups in outlying areas, even though promised free care, are frequently left with no access to services. It is this group that The Healing Hands Abroad Foundation is committed to helping. Following the success of our Team's inaugural mission, we are planning future collaboration with the Ministry of Health and the staff of the Ricardo Limardo Hospital.
